

# BERG Go-karts 2016

**Your BERG Dealers**

# Outdoor fun with BERG for every child Therefore BERG!

## Therefore BERG!

Craftsmanship, design and innovation are the ingredients with which BERG distinguishes itself in the market. BERG's Research & Development department focuses continuously on improving and developing go-karts and trampolines.

## Playing outside safely

BERG products are robust and quality guaranteed. Our products are tested rigorously for safety so that children can play outside safely.

## Have fun outside!

Jump really high on the trampoline or tear through the streets on your go-kart. A BERG is an experience for children.

## Durable products

BERG makes durable, timeless products that need very little maintenance. A BERG product lasts for generations!

## Quality

BERG ensures quality by using our own designers and by testing at our own test facilities and through various user tests.

## An eye for design

BERG products are functional, nicely designed, and perfectly finished down to the smallest detail. Once a BERG, always a BERG.

BERG retains the absolute right to make changes to the products described and/or depicted in this brochure. No part of this brochure may be reproduced without written permission from BERG. Model, size and colour changes reserved. Printing and typesetting errors reserved. Valid from January 2016. Art no: 49.68.01.02. © Copyright BERG Toys B.V. 2016

# Every child deserves a BERG

The story of BERG begins in a small village in the middle of the Netherlands. A er much sawing, welding and painting in a farm shed, the first go-kart was produced. In the meantime, this hobby has grown to become an international company by the name of BERG. Over a period of 30 years, our BERG products have found their way to more than 65 countries across the world.

I had a lot of fun making my first go-kart many years ago. Today, I still enjoy developing and selling our beautiful products together with our BERG employees. Our BERG products also include a good service, which is why we work together with our enthusiastic dealers and importers. They can tell you all about the BERG products and there you can try out a go-kart or a trampoline.

Our go-karts and trampolines come in various colours and sizes. In other words, there is always a BERG to suit you. Have lots of fun with your own BERG!

Henk van den BERG  
Managing Director

BERG strives to offer as many children as possible the opportunity to be active and creative together in a sustainable way.

# BERG InGround Trampolines

The best in-ground Trampolines!

## The advantages of a BERG InGround Trampoline:

- ✓ The special design calls for less digging, making the trampoline easier to install.
- ✓ The short legs on the InGround Trampoline are not sunk into the ground and are better protected against rust. The service life of your trampoline is therefore much longer!
- ✓ The BERG InGround Trampoline has an integrated frame net. This is handy, because it allows the air to escape that is created when jumping up and down on the trampoline, ensuring more jumping comfort. It also prevents toys from rolling under the trampoline. A safe solution!

## How do you sink a BERG InGround Trampoline into the ground?

Read the step-by-step plan to see how easy it is to sink a BERG InGround trampoline into the ground:

### Step 1:

Mark the location on the ground with the tape measure provided with the trampoline.

### Step 2:

Dig the hole for your trampoline.

### Step 3:

Dig out the hole entirely in the shape of a bowl and place your BERG InGround Trampoline above the hole.

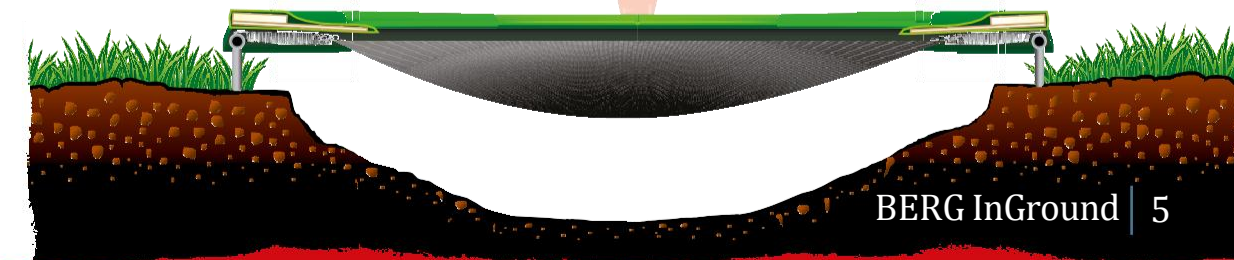

### Step 4:

After that, the BERG InGround Trampoline is ready for use. So start jumping!

A trampoline integrated in the garden, who wouldn't want that? All BERG InGround Trampolines have a unique patented solution whereby the frame rests on specially designed low legs which are firmly placed on the ground. You have a choice of InGround Trampolines in various price ranges and different quality standards. What are you waiting for? Look for a BERG InGround Trampoline that suits you!

## Dimensions of the hole for the BERG InGround Trampolines:

Dimensions trampoline	Dimensions hole	Depth (hole)
Ø180 cm	Ø140 cm	Min 50 cm
Ø240 cm	Ø200 cm	Min 50 cm
Ø270 cm	Ø230 cm	Min 75 cm
Ø300 cm	Ø260 cm	Min 50 cm
Ø330 cm	Ø290 cm	Min 75 cm
Ø380 cm	Ø340 cm	Min 75 cm
Ø430 cm	Ø390 cm	Min 75 cm
220 x 330 cm	170 x 280 cm	Min 75 cm

\*Extra frame warranty on registration at [www.bergtoys.com/registration](http://www.bergtoys.com/registration). \*\* InGround trampolines have been treated with zinc with no black finish

# BERG, the safest choice!

Through years of experience, BERG delivers quality products enabling children to play outdoors safely and without any worries. A BERG Trampoline is distinctive because of design, innovation and craftsmanship. In short, a BERG product represents quality and safety.

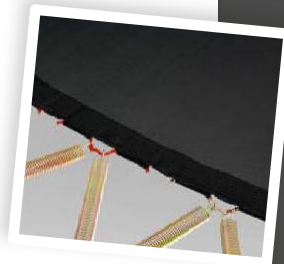

## 4 Innovative springs

The optimum balance between flexibility and strength of the springs is also tested by BERG. BERG springs are elasticated, flexible and finished with a rustproof layer of zinc, such as our unique TwinSpring Gold springs.

## 5 Trampoline jumping mat

The woven jumping mat is attached to the trampoline frame by springs through eyelets. The eyelets are attached to the jumping mat for a firm and safe connection to the springs.

## 6 Strong padding

The BERG protective edges are made of a strong UV and wear-resistant outer fabric. The protective edge is filled with water-resistant closed cell foam. The wide protective edge is fitted directly onto the jumping mat.

## 7 Sturdy frame

The large diameter and wall thickness of the steel ensure a sturdy frame. The welded seams of the frame are finished to a high standard and the frame has a rust-resistant zinc layer, inside and out.

## 8 Accessories for additional safe

BERG wants to make all trampolines as safe as possible. For this reason, almost all trampolines are equipped with a standard safety net.

## 9 Extended warranty

To ensure that you enjoy years of carefree playtime fun on our trampolines, we offer an extended warranty on all BERG Trampolines. In addition, BERG Trampolines are of excellent quality.

Please visit [www.bergtoys.com/registration](http://www.bergtoys.com/registration) for more information on the warranty. Would you like more information on our trampolines? Take a look at our video clips on [www.youtube.com/bergtoys](http://www.youtube.com/bergtoys)

## 1 Our own laboratory

BERG carries out safety and quality tests in its own laboratory. Durability, weight and stability tests are carried out in these laboratories. These tests are intended to continuously improve the safety and quality of the products.

## 2 Materials tested

Specialised independent test institutes test the materials used on BERG Trampolines. Naturally, we test these ourselves too. Test institutes such as TÜV, Intertek and Vinçotte carry out UV tests on the jumping mat and protective edge, among other things.

## 3 User tests

User-friendliness and safety are also tested by BERG's own test panel.
